NACHHALTIGKEIT SUSTAINABILITY

Für unsere NORA Kollektion verwenden wir ausschließlich biozirkuläre Kunststoffe, die aus gebrauchten Speiseölen recycelt werden. Die Öle werden gesammelt und in einem speziellen Recyclingverfahren in Kunststoff umgewandelt. Dieses neue Material ist extrem langlebig, frei von Melamin und zu 100% recycelbar.

Die Produkte bleiben lange schön und sind natürlich spülmaschinen- und auch mikrowellengeeignet.

Our NORA collection is made exclusively from bio-circular plastics, recycled from used cooking oils. These oils are collected and converted in a specialized recycling process, creating a material that is exceptionally durable, melamine-free, and 100% recyclable. The products remain beautiful for a long time and are of course dishwasher and microwave safe.

VERTRAUEN CONFIDENCE

Wir geben Sicherheit. Die eigene Fertigung am Standort Deutschland ermöglicht uns, besonders schnell, ressourcenschonend und vor allem transparent zu produzieren. Die gesamte Wertschöpfung befindet sich an einem Ort, das Unternehmen sowie alle Materialien sind zertifiziert und unsere Lieferketten und Herstellungsprozesse lückenlos nachvollziehbar.

We provide security. Our in-house production in Germany allows us to manufacture quickly, resource-efficiently, and, above all, transparently. The entire value chain is located in one place, the company and all materials are certified, and our supply chains and manufacturing processes are meticulously traceable.
